

CALLED BY NAME -- (Jim Bodden)

(Verse 1)

                  D                  E  
In the stillness of the morning,  
                  F                  G  
Whispers stir the silent dawn,  
                  D                  E  
Echoes of a sacred calling,  
                  F                  G  
Your soft voice it leads me on.

                  C  
In the clamor of the daylight,  
                  D  
Where the trials never wane,  
                  A  
There's a steadiness in the chaos,  
                  F                  G  
You call me out by name.

(Pre-Chorus)

                  F                  C  
Through the fire, through the rain,  
                  G                  A  
In joy and through the pain,  
                  F                  C  
Your words, they comfort and they claim,  
                  G                  A  
I have called you by name.

(Chorus)

                  F                  C  
Called by Name, in the darkness, you're my flame,  
                  A  
Through the journey, through the shame,  
                  G  
You call me out, you call me by my name.  
                  F                  C  
Called by name, every triumph, every strain,  
                  A  
In Your presence, I remain,  
                  G                  F  
Called by name, I am called by name.

(Verse 2)

                  D                  E  
In the footsteps of life's journey,  
                  F                  G

Through the moments unseen, unknown,  
          D                  E  
Searching for Your hand to guide me,  
          F                  G  
To be obedient to what I was told.

          C  
In the echo of my choices,  
          D  
In the silence of my room,  
          A  
Your voice it keeps me grounded,  
          F                  G  
Your love my heart assumes.

(Pre-Chorus)

          F                  C  
When the world is loud and vain,  
          G                  A  
Your call remains the same,  
          F                  C  
A covenant that won't disclaim,  
          G                  A  
I have called you by name.

(Chorus)

          F                  C  
Called by name, in the darkness, you're my flame,  
          A  
With a love that reclaims,  
          G  
You call me out, you call me by my name.  
          F                  C  
Called by Name, every triumph, every strain,  
          A  
In Your grace, I'm unchained,  
          G                  F  
Called by name, I am called by name.

(Bridge)

          D                  C          F  
In the whispers of the pines,  
          C          D          G  
Or in the roaring of the tides,  
          F          A          C          D  
Your voice is the one that abides,

F            C            A  
Calling me, to rise.

(Outro)

So I'll worship in my walking,  
And I'll praise You in my talk,  
For I am Yours and You are mine,  
And I've been called by name.
